THIS IS UNEVALUATED INFORMATION

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES. WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS REPORT IS PROHIBITED.

1. "The 'Hydroelectric Power Station named for Kirov' at Dubrovka, also called 'Leningrad Power Station No 8' was modernized in 1948-1949. In 1953, the power station has in operation five high pressure steam turbines of 30,000 kw each and of the brand 'LMZ', the total capacity of the Dubrovka power station being 150,000 kw.
2. "The station uses local peat as fuel. It has enormous peat-beds in the Nazia rayon, southeast of Dubrovka. A small railway (with trolleys) leads from these peat-beds directly to the furnaces of the power station.
3. "The 'Volkhov Hydroelectric Power Station named for Lenin', also called 'Leningrad Power Station No 6' is connected by a 110,000 volt transmission line with the Dubrovka power station. The transmission line goes over the town of Mga.
4. "The Volkhov power station was also modernized in 1948-1949. This year it has six hydro-turbines of 15,000 kw each, produced by the Leningrad plant 'Elektrosila' named for Kirov. The total capacity of the station is 90,000 kw. This energy goes to the 'Volkhov Aluminium Plant named for S M Kirov' and to the city of Leningrad."
